

NEW

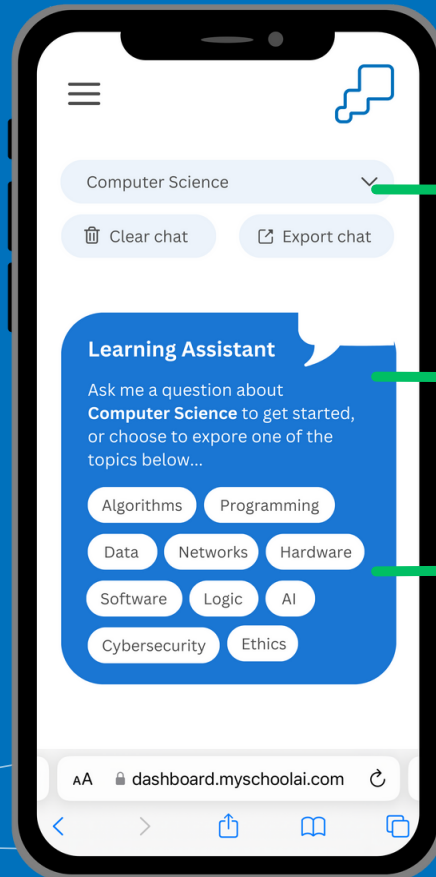

The myschoolai Learning Assistant is an AI-powered tool that works as a personal tutor. It guides students through topics, filling gaps in their knowledge and allowing them to work at their own pace.

100% bespoke learning

- Differentiated work
- Learning Assistant focuses on gaps in knowledge
- Work delivered at students own pace

Course Specific

- The Learning Assistant focuses on course specific information
- The student interacts directly with the Learning Assistant answering questions and provided with full course specific examples

Subject select

Students can select from a wide range of subjects.

Directed Learning

Learning Assistant will lead students through the topics with suggested questions.

Learning options

Students are either shown the content or can attempt to explain the content. If they explain the content it is marked and corrections are made.

Engaging with the Learning Assistant allows it to identify gaps in learning and learn what you don't know...

...it then addresses these gaps by providing a personalised learning path.
